

DUO SHOWER

Frostline DUO is a freestanding outdoor shower, where you get a frost-free solution and the opportunity to place your outdoor bath exactly where you want it. The shower is a fusion of streamlined quality and timeless design, handmade in Denmark and crafted from recyclable stainless steel of the highest quality, ensuring enjoyment for many years.

DUO SHOWER

Frostline, crafted in Denmark for over 25 years, presents a diverse collection of frost-free outdoor products renowned for their elegant design, superior quality, and functionality. Our showers feature a mechanical valve that efficiently drains water after each use, enabling year-round usage without electricity. Constructed from stainless steel, they are environmentally friendly. With dual handles, adjusting water temperature is effortless.

Possibility of temperate water

It is possible to bathe in water with a desired temperature. It is simply made with a mixing circuit on the water connection. An environmentally friendly and advantageous solution, as you both save costs on installation and operation, and ensure good daily comfort. You'll get the same water temperature every time, and at the same time accidental scalds and large heat losses in the water supply are eliminated. The temperature can be adjusted as desired.

We recommend

It is recommended to use supply water pipes of PEM pipes of 25mm or larger.

Specifications

Installation

| | |
|---------------|---------|
| Shower height | 2050 mm |
| Shower depth | 220 mm |
| Grip height | 795 mm |
| Connection | 3/4" |

Product dimension

| | |
|-------------------------|---------------|
| Total height | 3166,5 mm |
| Total width | 166 mm |
| Well | D160 x 900 mm |
| Dimension (Shower pipe) | D25 mm |
| Thickness | 2 mm |

Packaging

| | |
|-----------|-------------------------|
| Dimension | 312x20x40 cm |
